

ProMariner Heavy Duty Recreational Series On-Board Marine Battery Charger

Distributed-On-Demand™ Technology

Automatically charge and maintain engine crank battery(s) while sensing and distributing 100% of the available charging amps to trolling motor or house bank battery(s).

Automatic Multi-Stage Charging

Fully charge and extend the life of your batteries with ProSport's multi-stage performance charge profiles. Automatically charges and conditions your batteries with a built-in safe maintenance mode for long or short term storage.

Digital Battery Type Selector

3 Charge Profiles - User selectable performance charge profiles for: Flooded (lead-acid)/STD AGM, GEL & High Performance (HP) AGM.

Expanded LED Status Center

High Visibility LED Status Center provides at-a-glance status of: AC Power, Charge Mode, Battery Type, and Ready / Maintenance Mode.

Pre-wired for Easy Installation

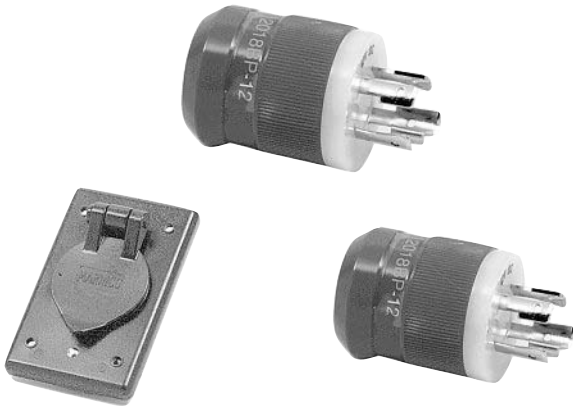

ORDER NO.	VOLTS	AMPS	BANKS	PRICE
PRO 42006	12	6	1	\$114.60
PRO 42012	12/24	12	2	\$177.05
PRO 42021	12/24/36	20	3	\$262.00

Marinco

Trolling-Charging System Package

Includes the 2018BP-12, 2018BP-24, and 2018BRMB.

ORDER NO.	PRICE
MAR 2018PKG	\$127.93

Receptacle

Glass-reinforced corrosion resistant nylon. Black. Will accept 8 gauge stranded wire or up to 6 gauge with ring terminals. 12 and 24 volt.

ORDER NO.	PRICE
MAR 2018BR	\$64.29

Trolling Motor Plug (Male)

Connects to trolling motor. Jumpered internally to supply 12V and 24V power to the trolling motor when plugged into the receptacle. Black.

ORDER NO.	PRICE
MAR 2018BP24	\$30.68

ProMariner ProTournament Series On-Board Marine Battery Chargers

- Automatically senses and distributes a full 10, 15, 20, or 30 amps (model specific) to any one bank or combination of all banks
- 2 to 3 times faster than traditional battery chargers
- 100% charging output with AC power as low as 90 V AC while using long extension cords
- All aluminum housing
- Completely serviceable for a lifetime of use under ProMariner's lifetime repair guarantee
- Internal battery selection – lead acid, gel or AGM compatible
- True 3-step charging; electronically controlled for the fastest charge

ORDER NO.	VOLTS	AMPS	BANKS	CHARGE RATE	SIZE HxWxD	AC IN	PRICE
PRO 51010	12/24	10	2	100 amps/10hrs	3" x 12" x 6-7/8"	90-270	\$289.18
PRO 51015	12/24/36	15	3	150 amps/10hrs	3" x 13" x 6-7/8"	90-135	\$453.00
PRO 51030	12/24/36	30	3	300 amps/10hrs	3" x 15.5" x 6-7/8"	90-135	\$566.58

Step 1: Fast Charge

Charger delivers maximum amperage to batteries for the fastest charge (current regulation mode) until battery voltage is raised to 14.6 V DC.

Step 2: Absorption Charge

Maximizes charge and holds voltage at 14.6 V DC for 3 hours (voltage regulation mode) reducing sulfate buildup and conditions batteries.

Step 3: Float Mode

A precision 13.3 V DC finishing voltage that maintains your batteries, (step down voltage regulation mode) which is perfect for short or long storage periods and will never overcharge your batteries.
