

STANDARD HORIZON

HX600S Hand Held VHF

This unique little submersible radio is capable of being connected to a GPS through the charging cradle, which allows DSC distress calls to be sent with GPS position, a handy feature if you have to get off your vessel in a hurry. In addition, the submersible HX600S produces 700mW (loud) of speaker output so you can hear communications even in noisy environments. With advanced receive capabilities on FM music stations, AM broadcast band and Aeronautical band, you can enjoy using the HX600S even when you are not onboard. In an emergency, the unique super bright LED distress strobe light, blinks internationally recognized SOS to visually signal another vessel. Supplied with a high-capacity non-memory 1400mAh Nickel Metal Hydride battery, AC and DC charger with drop-in cradle
