

FLOJET

Water System Pump Quiet Quad Pump

Flojet's advanced Quiet Quad surpasses current pump standards by a wide margin. Unique four-chamber design with quad diaphragm and built-in bypass greatly reduces annoying pump cycling chatter, while assuring trouble-free performance. Quiet Quad purrs along quietly and reliably, even when delivering a smooth, no-splash flow up to 3.3 gallons per minute. It draws just 3.9 amps at full flow. And it can run dry for extended periods of time without harm. Easy to install, and simple to service and comes with a two-year warranty. Options include a fine mesh strainer to keep your potable water clear of particles and debris.

Model No. 4405-143 A: 12 volt, two 1/2" QEST and two 1/2" barb ports.

Pro Baitmaster

4.0 GPM, 8.5 Max Amps, 35 Gallon and Under Tank, 12VDC

The Pro Baitmaster™ is best suited for continuous duty livewell or washdown applications in harsh environments. The SHURcote II seamless motor shell protects the pump from splashed liquids and switches are sealed against water damage. These rugged self-priming pumps deliver high lift, can run dry without damage, and won't overheat with extended use.

- Run Dry Capability
- Continuous Duty
- Self Priming
- SHURcote II Seamless Motor
- Splash Proof
- Sealed Switch
- Ignition Protected
