

**POWER SERVICE PS Diesel Fuel Supplement + Cetane Boost**

- Prevents fuel gelling in temperatures as low as -40°F – no gelling guaranteed!
- Equals the performance of a 50/50 blend of No. 2 and No. 1 diesel fuels
- Lowers Cold-Filter Plugging Point (CFPP) as much as 36°F – keeps fuel-filters from plugging with wax
- Contains anti-icing additives – protects against fuel-filter icing
- Boosts cetane up to 4 numbers – provides smoother engine performance with less power lag and easier cold starts
- Cleans injectors – exceeds engine manufacturer's specifications
- Reduces emissions and black exhaust smoke
- Increases power
- Decreases fuel consumption – fuel savings exceed cost of additive
- Lubricates fuel injection pumps and injectors – reduces wear
- Prevents thermal breakdown of diesel fuel – protects against sludge formation that plugs fuel-filters and injectors
- Does not contain any alcohol of any kind

ORDER NO.	SIZE	TREATS	PRICE
PSD 0102512	32 oz.	100 Gal.	\$14.52

**POWER SERVICE PS Bio Kleen Diesel Fuel Biocide**

- Dual-Phase – effective in both diesel fuel and water as recommended by major diesel engine manufacturers
- Effective as a “quick-kill” biocide and for long-term diesel fuel maintenance
- Kills microbes (bacteria and fungi) that grow in dispersed and free water associated with diesel fuels
- Prevents fuel-filter plugging – helps prevent fuel system failures
- Protects fuel system components against organic acids created by microbial growth – prevents fuel tank corrosion.

ORDER NO.	SIZE	TREATS	PRICE
PSD 0901606	16 oz.	960 Gal.	\$52.20

**POWER SERVICE PS Diesel Kleen + Cetane Boost**

- Boosts cetane 4 to 6 numbers – provides smoother engine performance with less power lag
- Cleans dirty fuel injectors
- Reduces exhaust emissions (HC, NOx, CO, PM) up to 50 percent
- Meets lubricity requirements for all diesel fuel injection systems – reduces pump and injector wear
- Reduces piston and combustion chamber deposits
- Increases power
- Decreases fuel consumption up to 5 percent – fuel savings exceed cost of additive
- Prevents thermal breakdown of diesel fuel
- Corrosion inhibitor exceeds Cummins N14 Specifications
- Stabilizes stored fuel - protects against conditions that promote microbial growth
- Contains Slick Diesel for maximum fuel lubrication

ORDER NO.	SIZE	TREATS	PRICE
PSD 0301606	16 oz.	50 Gal.	\$10.02
PSD 0302512	32 oz.	100 Gal.	\$14.27
PSD 308006	80 oz.	250 Gal.	\$31.42

**POWER SERVICE PS Diesel 9•1•1**

Diesel 9•1•1, as its name implies, is the product diesel-engine operators call on when they have a fuel emergency. Water is the number-one problem found in diesel fuel and can cause potentially serious problems to your fuel system, including microbial growths, rust or enhanced corrosion, a reduction in the lubrication properties of the fuel, injector nozzle deterioration and in winter, fuel-filter icing.

ORDER NO.	SIZE	TREATS	PRICE
PSD 808006	80 oz.	85 to 165 Gal.	\$32.10

**POWER SERVICE PS Clean Diesel Fuel and Tank Cleaner**

An advanced fuel tank cleaning technology that has been proven effective. It combines the functions of biocides, long-term fuel stabilizers and water dispersants into a single multifunctional product. Used as a vital part of any preventive maintenance program or for immediate cleanup of contaminated equipment or fuel storage tanks.

- Effective in diesel fuel, Ultra Low Sulfur Diesel (ULSD), biodiesel and gasoline
- Ultra Low Sulfur Diesel (ULSD) Compliant – does not affect the sulfur content of diesel fuel
- Cleans fuel tanks contaminated with algae and slime
- Disperses water – protects against conditions that promote microbial growth
- Prevents premature fuel-filter plugging caused by algae and slime
- Stabilizes fuel during long-term storage – prevents sludge formation
- Protects fuel system components against organic acids created by algae and slime – prevents fuel tank corrosion
- Replaces the requirement for long-term storage additives, biocides and water dispersants

ORDER NO.	SIZE	TREATS	PRICE
PSD 928006	80 oz.	125 Gal.	\$42.40

**Coastal**

**Fuel System Water Remover**

Fuel System Water Remover takes water out of the fuel system. Use year-round to de-water fuel system. Absorbs moisture for smoother engine performance. Prevents frozen gas line and carburetor icing.
