

3M

Marine Adhesive/Sealant Fast Cure 5200

A faster curing version of 3M Marine Adhesive/Sealant 5200. The high performance polyurethane becomes tack free in one hour and fully cures in approximately 24 hours. The seal is extremely strong, retains its strength above or below water line. Stays flexible too – allows for structural movement. Stress caused by shock, vibration, swelling or shrinking is effectively absorbed. Has excellent resistance to weathering and salt water. Won't sag or flow in vertical or horizontal seams.

Acryl Marine Putty – White

Designed specifically for the boat repair market, this putty is recommended for filling pinholes, scratches and other surface defects on hulls. Its white color minimizes the possibility of color showing through the final coat. Other advantages include easy sanding, fast drying, spreads easily, and has low shrinkage.
