GUEST

Beamer™ Remote Control Spotlights

- Halogen beam
- Twice as bright as other national brands claiming 1 MILLION candlepower
- 355° horizontal rotation
- 40° upward adjustment angle
- 35° downward adjustment angle
- Waterproof bullet connectors at light base and controls for ease of installation
- Improved gaskets and sealing for years of reliable use
- Fortified "neck" bracing to resist damage due to side impact
- Heavy Conformal coating to protect sensitive electronic circuitry against the marine environment
- All units are able to be retrofitted to existing Beamer spotlight controls

NOTE: New Beamers have a wider footprint than the old style and will not fit mounting holes. The wider footprint does allow covering old holes with the new base.

GUEST M-100 Halogen Spotlight

This 100,000 candlepower halogen sealed beam spotlight from Guest provides the ultimate combination of sleek, contemporary styling and exceptional performance. The corrosion-proof, sealed housing is constructed of impact-resistant, UV-stabilized ABS. Direct the powerful beam up to 360° rotation, a precise 80° vertical sweep, and continuous multi-directional horizontal sweep using the simple-to-operate hard wired control panel.

Secondary Control Station

A dual remote control station can be installed with the addition of two parts: a Dual Station Kit (#22219) and an additional wiring cable (#22009-#22012). Special order.

Halogen Spotlight Kit

Includes spotlight, joystick control panel, all mounting hardware. 15' wiring harness.

ORDER NO.	DESCRIPTION	PRICE
GST 22200	M-100 Spotlight	\$451.36
GST 22011MAP	25' Wiring Cable	\$132.75

GUEST 5" Remote Control Combination Spotlight/Flood-Light

Constructed of stainless steel for long-lasting good looks, the stainless steel is more durable than zinc-based lights. The spotlight/floodlight combination is suitable for boats up to 40' where a forward flood light is needed in addition to a spotlight. An optional dual station can be installed. The spotlight kit comes with a cable set (15') and joystick control, 22240.

Features:

- 350° horizontal sweep and 70° vertical movement
- Light beam, can be directed manually without harm to the motor
- A single switch controls spot or flood
- Built-in clutch for added protection
